## Amirali Ameri

### Full-stack Javascript Developer

I have more than 2 years of experience working as a full-stack javascript developer. I tend to learn new technologies and advance my skills in all areas related to my job. I have worked on small, medium-sized and big projects using Node js and React as main technologies. My last project was a stock-exchange website for Iran stock market, and my job was to develop front-end of the website using React, Redux, Redux-Saga, Jest, Cypress, etc.
